

# Wet Cargo Technical Managers/Operators Q1 2022

Who are 'The Good', The 'Very Average' and 'The Ugly' Operators so far this year?

## Summary:

In Q1 (2022) 5,513 Wet Cargo vessels (including Chemical/Oil/Product Tankers & Gas Carriers), operated by 302 technical managers, were safety risk rated by IMRRA's analysts.

The data collected by IMRRA was aggregated into four vessel operator traffic light risk rating\* tables:

1. Green Risk Operators - The Good
2. Amber Risk Operators - The Very Average
3. Bottom Amber, or at risk of achieving a Red Risk rating
4. Red Risk Operators – The Ugly! The bottom five operators currently trading.

\*See Appendix A for IMRRA's Red/Amber/Green risk rating definitions.

Read on to discover the Wet Cargo Operators (10-or-more vessels risk rated), whose performance can be rated as being Good, Average, or Ugly this year.

---

## Appendix A:

### 1. IMRRA's Risk Ratings Explained:

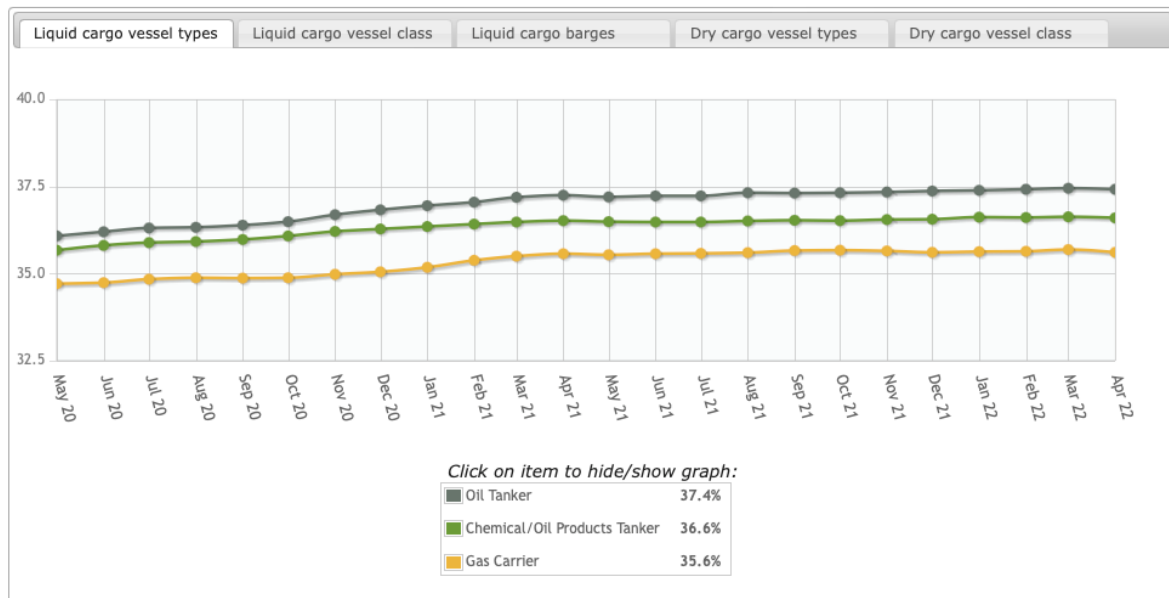

**Red Risk Rating:** Requires immediate action to control the potential hazard. Vessel a high-risk probability for severe accidents and casualties.

**Amber Risk Rating:** A planned approach to vessel risk management. Higher vessel risk ratings require increased risk management strategies.

**Green Risk Rating:** Highest standard of vessel operation. Green risk ratings are more likely to reduce your risk and increase profits.

**2. Risk Trends Table\*:** Fleet or Vessel type averages are referenced individually against the KPI benchmarked average show on the table below.
