

International Maritime Risk Rating Agency's Top-5 Ranked Wet Cargo Vessels of 2021

Introduction: IMRRA's unique top-5 rated Wet Cargo vessel winners of 2021 by vessel type.

Review the vessel type winners and also runs from 23,905 vessels risk ranked by IMRRA's analysts. All tables include the vessel's risk rating and Technical Operator.

How are the tables compiled? Every vessel risk rated is KPI benchmarked by an analyst into a report, allocated a percentage rating and referenced against the fleet type average. The question which our clients always ask is the vessel above, or below, the fleet type average? How can their business manage their vessel risk? Where are the commercial opportunities?

Red/Amber/Green: Traffic Light Warning System: The reports also employ a secondary and simple traffic light warning of red/amber/green. The risk rating colours with each vessel risk warning to visually represent the potential increased consequences of a commercial relationship with that vessel.
